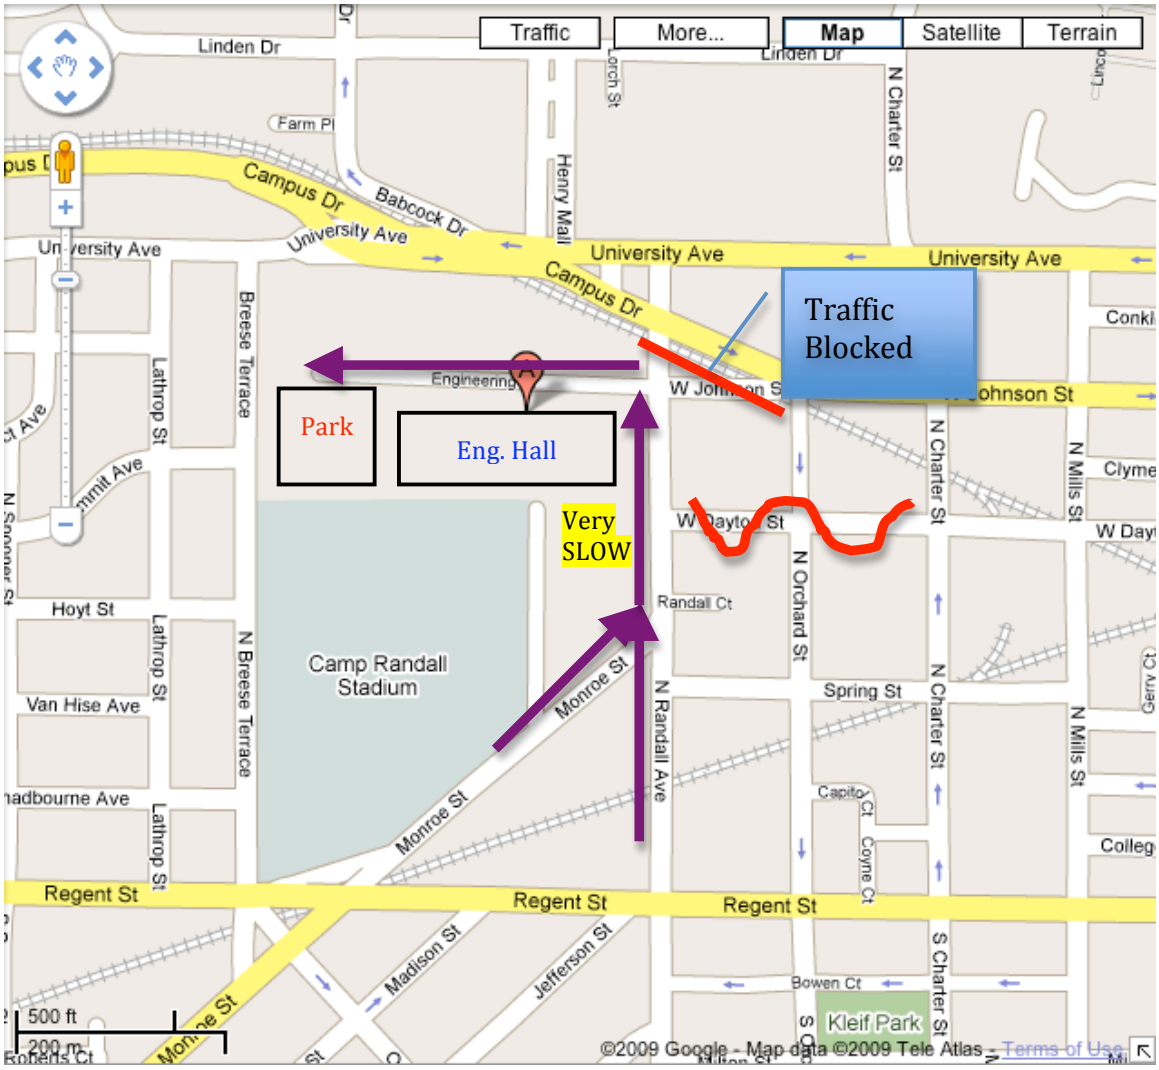
Getting to IEEE Meeting on Friday May 22nd (11:45 am – 1:00 pm)
http://www.bugsoft.com/ieee/meetings.html

The demolition of Union South, the construction of the Institute of Discovery, and the re-work on University Ave, have made for only one entrance to the engineering campus. You cannot turn right from Campus Drive onto Randall and then onto Engineering Drive, as the intersection is closed. The only way in, is to head North on Randall from either Regent or Monroe. Even Dayton Street should be avoided as the Union South demolition crews regularly block this off.


Carpooling Encouraged!
